

Tork-Trak

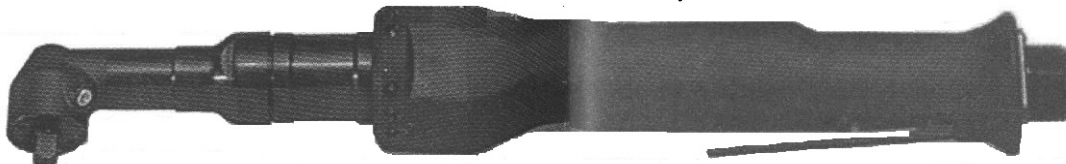

DC Controller / Nutrunner

COMPLETE SYSTEM FOR ASSEMBLY!
DEMO Unit – Never used in Production!

Model TTL52-160-E35/55
ITD Automation Part Number 575386
160VDC 15A continuous, 25A momentary.
CONTROL and / or MONITOR
TORQUE and ANGLE!

SYSTEM INCLUDES;

TT160-235-2M Right Angle Nutrunner with indicator light ring
ITD Automation Part Number 580342
And 5 Meter connecting cable, ITD Automation Part Number 575428

**TT160-235-2M Right Angle Nutrunner Specifications;
Torque capacity of 400 in/lbs @ 200 rpm, 3/8" sq. drive.**

**Controller has capability to perform multiple steps in single rundown,
IE: begin fastener rundown at low rpm, accelerate to full rpm, slow to 50 rpm at initial
torque resistance, reverse at preset torque for time or rotation specified, finish rundown
to final Torque / Angle.**
